

TO THE PATIENT: You have the right, as a patient, to be informed about your condition and the recommended surgical, medical, or diagnostic procedure to be used so that you may make the decision whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so you may give or withhold your consent to the procedure.

I (we) voluntarily request Dr. _____ as my physician, and such associates as he/she may deem necessary (for example anesthesia providers, educational assistants, and other health care providers who are identified and their professional role explained to me) to treat my condition. My condition has been explained to me as:

(Condition to be treated)

I (we) understand that the following surgical, medical, and/or diagnostic procedures are planned for me and I (we) voluntarily consent and authorize these procedure(s):

(Procedures)

I (we) understand that my physician may discover other or different conditions which require additional procedures than those planned. I (we) authorize my physician, and any associates, technical assistants and other health care providers to perform such other procedures which are advisable in their professional judgment.

I (we) understand that these qualified medical practitioners may be performing significant tasks related to the surgery such as opening or closing incisions, harvesting or dissecting tissue, altering tissue, implanting devices, tissue removal or photography during procedures.

☐ Initial

I (we) Do ☐ Do Not ☐ consent to the use of blood and blood products as considered necessary. *Benefits, risks, alternatives and the risks and benefits of alternatives have been discussed and I (we) have been given the opportunity to ask questions.*

TEXAS MEDICAL DISCLOSURE
Hematic and lymphatic system

☐

1. Transfusion of blood and blood components.

1. Fever.
2. Transfusion reaction which may include failure or anemia
3. Heart failure
4. Hepatitis
5. AIDS (Acquired Immune Deficiency Syndrome)
6. Other infections

PATIENT IDENTIFICATION

Initial

Just as there may be risks and hazards in continuing my present condition without treatment, there are also risks and hazards related to the performance of the surgical, medical, and/or diagnostic procedures planned for me, such as the potential for infection, blood clots in veins and lungs, hemorrhage, allergic reactions and even death. I (we) also realize that the following specific risks and hazards may occur in connection with this particular procedure(s):

Initial

I (we) Do ☐ Do Not ☐ consent to have one or more manufacturer's technical representatives, as requested by my physician, in the room during the procedure. I understand that one or more representatives from the equipment and/or supply company for the products that the physician will use during my procedure, may be present for the procedure but will not perform any portion of the procedure. I further understand that all manufacturer's technical representatives present have confidentiality agreements and that none of the my personal health information will be disclosed to anyone other than my caregivers within this hospital.

I (we) consent to the disposal by hospital authorities of any tissue or parts which may be removed.

I (we) have been given the opportunity to ask questions about my current condition(s), the proposed procedure(s), the benefits, the likelihood of success, the possible problems related to recovery, the possible risks of nontreatment of my condition, and other alternative forms of treatment, and the risks and benefits of alternatives involved. I (we) understand that no warranty or guarantee has been made to me as to result or cure. Any professional/business relationship between my health care providers, the hospital and educational institutions has been explained to me.

I (we) certify this form has been fully explained to me, that I (we) have read it or have had it read to me (us), that the blank spaces have been filled in, and that I (we) understand its contents. I (we) believe that I (we) have sufficient information to give this informed consent and I (we) request the procedure(s) to be done.

PATIENT IDENTIFICATION

Anesthesia Consent

TO THE PATIENT: You have the right, as a patient, to be informed about your condition and the recommended anesthesia/analgesia to be used so that you may make the decision whether or not to receive the anesthesia/analgesia after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so that you may give or withhold your consent to the anesthesia/analgesia.

I (we) understand that anesthesia involves additional risks and hazards, but I (we) request the use of anesthetics for the relief and protection from pain during the planned and additional procedures. I (we) realize the anesthesia may have to be changed possibly without explanation to me (us).

I (we) understand that serious but rare complications may result from the use of any anesthetic including respiratory problems, drug reactions, paralysis, brain damage or even death.

I (we) voluntarily request that anesthesia and/or perioperative pain management care (analgesia) as indicated below be administered to me (the patient). I understand it will be administered by an anesthesia provider and/or the operating practitioner, and such other health care providers are necessary. Perioperative means the period shortly before, during or shortly after the procedure. I also understand that other complications may occur. Those complications include but are not limited to:

Check planned anesthesia/analgesia method(s) and have the patient/other legally responsible person initial.

- ☐ **General Anesthesia** - injury to vocal cords, teeth, lips, eyes; awareness during the procedure; memory dysfunction/memory loss; permanent organ damage; brain damage.
- ☐ **Regional Block Anesthesia/Analgesia** - nerve damage; persistent pain; bleeding/hematoma; infection; medical necessity to convert to general anesthesia; brain damage.
- ☐ **Spinal Anesthesia/Analgesia** - nerve damage; persistent back pain; headache; infection; bleeding/epidural hematoma; chronic pain; medical necessity to convert to general anesthesia; brain damage.
- ☐ **Epidural Anesthesia/Analgesia** - nerve damage; persistent back pain; headache; infection; bleeding/epidural hematoma; chronic pain; medical necessity to convert to general anesthesia; brain damage.
- ☐ **Monitored Anesthesia Care** - memory dysfunction/memory loss; medical necessity to convert to general anesthesia; permanent organ damage; brain damage.
- ☐ **Deep Sedation** - memory dysfunction/memory loss; medical necessity to convert to general anesthesia; permanent organ damage; brain damage.
- ☐ **Moderate Sedation** - memory dysfunction/memory loss; medical necessity to convert to general anesthesia; permanent organ damage; brain damage.
- ☐ **OTHER** - Including possible complications (required): _____

ADDITIONAL COMMENTS/RISKS:

- ☐ **PRENATAL/EARLY CHILDHOOD ANESTHESIA** - potential long-term negative effects on memory, behavior, and learning with prolonged or repeated exposure to general anesthesia/moderate sedation during pregnancy and in early childhood.

Additional Comments/Risks: _____

I (we) have been given an opportunity to ask questions about my condition, benefits, risks, alternatives and the risks and benefits of alternative forms of anesthesia and treatment, risks and benefits of non-treatment, the procedures to be used, and the risks and hazards involved. I (we) have sufficient information to give this informed consent.

I (we) certify this form has been fully explained to me, that I (we) have read it or have had it read to me, that the blank spaces have been filled in, and that I (we) understand the contents.

I (we) understand that no promises have been made to me as to the result of anesthesia/analgesia methods.

PATIENT IDENTIFICATION

LIST A TEXAS MEDICAL DISCLOSURE

(Rev. 2022)

Procedures requiring full disclosure (List A). The following treatments and procedures require full disclosure by the physician or health care provider to the patient or person authorized to consent for the patient.

Patient to initial appropriate square.

PLASTIC SURGERY AND SURGERY OF THE INTEGUMENTARY SYSTEM

☐ (1) Augmentation mammoplasty (breast enlargement with implant).

- (A) Bleeding around implant.
- (B) Sensory changes or loss of nipple sensitivity.
- (C) Failure, deflation, or leaking of implant requiring replacement.
- (D) Worsening or unsatisfactory appearance including asymmetry (unequal size or shape).
- (E) Problems with or the inability to breastfeed.
- (F) Capsular contracture (hardening of breast).

☐ (2) Bilateral breast reduction.

- (A) Skin flap or fat necrosis (injury or death of skin and fat).
- (B) Loss of nipple or areola.
- (C) Sensory changes or loss of nipple sensitivity.
- (D) Problems with or the inability to breastfeed.
- (E) Worsening or unsatisfactory appearance including asymmetry (unequal size or shape or not desired size).

☐ (3) Rhinoplasty or nasal reconstruction with or without septoplasty (repairing the middle wall of the nose).

- (A) Development of new problems, such as perforation of the nasal septum (hole in wall between the right and left halves of the nose) or breathing difficulty.
- (B) Spinal fluid leak.
- (C) Worsening or unsatisfactory appearance.

☐ (4) Reconstruction and/or plastic surgery operations of the face and neck.

- (A) Impairment of regional organs, such as eye or lip function.
- (B) Recurrence of the original condition.
- (C) Worsening or unsatisfactory appearance.

☐ (5) Liposuction (removal of fat by suction).

- (A) Shock.
- (B) Pulmonary fat embolism (fat escaping with possible damage to vital organs).
- (C) Damage to skin with possible skin loss.
- (D) Loose skin.

- (E) Worsening or unsatisfactory appearance.

☐ (6) Breast reconstruction with other flaps and/or implants.

- (A) Bleeding around implant.
- (B) Sensory changes or loss of nipple sensitivity.
- (C) Failure, deflation, or leaking of implant requiring replacement.
- (D) Damage to internal organs.
- (E) Worsening or unsatisfactory appearance including asymmetry (unequal size or shape).

☐ (7) Nipple Areolar Reconstruction.

- (A) Loss of graft.
- (B) Unsatisfactory appearance.

☐ (8) Panniculectomy (removal of skin and fat).

- (A) Persistent swelling in the legs.
- (B) Nerve damage.
- (C) Worsening or unsatisfactory appearance.

☐ (9) Tendonitis, tendon release, and trigger releases.

- (A) Recurrence of symptoms.
- (B) Damage to blood vessels, nerves, tendons, or muscles.
- (C) Worsening function.

☐ (10) Breast reconstruction with flaps.

- (A) Damage to blood vessels, nerves, or muscles.
- (B) Loss of flap possibly requiring additional surgery.
- (C) Damage to internal organs.
- (D) Increased risk of abdominal wall complications with pregnancy.
- (E) Abdominal hernias with abdominal .
- (F) Chronic abdominal pain with abdominal flaps.
- (G) Worsening or unsatisfactory appearance including asymmetry (unequal size or shape).

☐ (11) Flap or graft surgery.

- (A) Damage to blood vessels, nerves, or muscles.
- (B) Deep vein thrombosis (blood clot in legs or arms).
- (C) Loss of flap possibly requiring additional surgery.
- (D) Worsening or unsatisfactory appearance.

☐ (12) Tendons, nerves, or blood vessel repair.

- (A) Damage to nerves.
- (B) Deep vein thrombosis (blood clot in legs or arms).
- (C) Rupture of repair.
- (D) Worsening of function.

☐ (13) Reconstructive and/or plastic surgical procedures of the eye and eye region, such as blepharoplasty, tumor, fracture, lacrimal surgery, foreign body, abscess, or trauma. See subsection (f)(4) of this section (relating to eye treatments and procedures).
