## ANESTHESIA CONSENT

***TO THE PATIENT:*** *You have the right, as a patient, to be informed about your condition and the recommended anesthesia/analgesia to be used so that you may make the decision whether or not to receive the anesthesia/analgesia after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you; it is simply an effort to make you better informed so that you may give or withhold your consent to the anesthesia/analgesia.*

I voluntarily request that anesthesia and/or perioperative pain management care (analgesia) as indicated below be administered to me (the patient). I understand it will be administered by an anesthesia provider and/or the operating practitioner, and such other health care providers as necessary. Perioperative means the period shortly before, during and shortly after the procedure.

I (we) understand that anesthesia involves additional risks and hazards, but I (we) request the use of anesthetics/analgesia for the relief and protection from pain or anxiety during the planned and additional procedures. I (we) realize the type of anesthesia/analgesia may have to be changed possibly without explanation to me (us).

I understand that serious, but rare, complications can occur with all anesthetic/analgesic methods. Some of these risks are breathing and heart problems, drug reactions, nerve damage, cardiac arrest, brain damage, paralysis, or death.

I also understand that other complications may occur. Those complications include but are not limited to:

*Have the patient/other legally responsible person initial the planned anesthesia/analgesia method(s).*

☐ Initial
**Spinal Anesthesia/Analgesia -** Nerve Damage; Persistent Back Pain; Headache; Infection; Bleeding/Epidural Hematoma; Chronic Pain; Medical necessity to convert to general anesthesia; Brain Damage.

☐ Initial
**Epidural Anesthesia/Analgesia -** Nerve Damage; Persistent Back Pain; Headache; Infection; Bleeding/Epidural Hematoma; Chronic Pain; Medical necessity to convert to general anesthesia; Brain Damage.

☐ Initial
**Deep Sedation -** Memory Dysfunction/Memory Loss; Medical necessity to convert to general anesthesia; Permanent Organ Damage; Brain Damage.

☐ Initial
**Moderate Sedation -** Memory Dysfunction/Memory Loss; Medical necessity to convert to general anesthesia; Permanent Organ Damage; Brain Damage.

Additional comments/risks:

☐ Initial
**Prenatal/Early Childhood Anesthesia-** Potential long-term negative effects on memory, behavior, and learning with prolonged or repeated exposure to general anesthesia/moderate sedation/deep sedation during pregnancy and in early childhood.

I (we) have been given an opportunity to ask questions about my anesthesia/analgesia methods, the procedures to be used, the risks and hazards involved, and alternative forms of anesthesia/analgesia. I (we) believe that I (we) have sufficient information to give this informed consent.

I (we) certify this form has been fully explained to me, that I (we) have read it or have had it read to me, that the blank spaces have been filled in, and that I (we) understand the contents.

I (we) understand that no promises have been made to me as to the result of anesthesia/analgesia methods.
